2023 Beck Super Coupe

A mid engine tribute to the T6 twin grill coupe, the Beck Super Coupe features a modern square tube chassis, modern suspension, modern steering and modern amenities, all cloaked in a vintage body..

Chassis and suspension design by Chuck Beck.

- 2x4 steel tube chassis with 1x2 lateral bracing and center tunnel.
- Double a frame front suspension with adjustable coil overs. NOTE: For those of you that know Chuck and have followed my limited releases on the Coupe development, you know that this was a LONG part of the development process and we achieved a PROPER suspension geometry with virtually 0 bump steer.
- Inverted a-frame trailing arm rear suspension with 4 link and adjustable coil overs.
- Manual rack and pinion steering.
- Standard Beck steering column with crush coupler.
- Standard Beck 4 wheel disc brakes with available track brake packages made available upon request.

- Silver painted steel 10 slot road wheels, 15x5.5 with tire packages available from original sized 155/80 to modern 195/60. Custom wheel and tire packages available as requested.

Drivetrain and controls

- Mid engine design with interchangeable engine cradles.
- Current engine cradle accommodates a Subaru EJ253 SOHC 2.5L NA (175hp) mated to your choice of the 5 speed manual or automatic Subaru gearbox. Factory ECU w/ OBD-II diagnostics. Factory ECU w/ OBD-II diagnostics.

Special Edition does not sell engines or transmissions. Factory testing can be provided.

- Smooth cable shifting.
- Electronic throttle control
- Wilwood brake and clutch pedals mated to a dual circuit 19mm brake master and OEM hydraulic clutch system (Subaru or Kia hydraulics)
